

**TASK FORCE ON INTOSAI AUDITOR
PROFESSIONALIZATION**

STRATEGIC CONCEPT

2017-2019

1. BACKGROUND

The past number of years in INTOSAI have been characterised by an extensive emerging debate on professionalism. During early December 2017, Auditors-General from around the globe met in Abu Dhabi for INCOSAI 2016, where one of the key discussion topics focused on strengthening of professionalism in INTOSAI.

In keeping with this, the INTOSAI Capacity Building Committee (CBC) presented the congress with a position paper called “**The enabling mechanisms to facilitate and structure professional development at SAI level**” (referred to in the rest of the documents as the enabling mechanisms document) as a key driver of many of its deliverables. It also served as a key input to the theme paper and discussions in respect of INCOSAI 2016’s Theme 2 on the professionalization agenda for INTOSAI.

The document aims to define the concept of professionalism in INTOSAI and provide a basic roadmap of developments required to fully empower INTOSAI regions and individual SAIs to deal with this professionalization concept, in the context of the CBC’s mandate and strategic objectives. The document furthermore introduces the phrase “global profession, local solution” to clearly position the work of the CBC at a global level. In keeping with this catchphrase, it also deals with INTOSAI’s ambitions to develop professional pronouncements on auditor competence and to establish enabling relationships with a number of key international bodies in the world of accounting and auditing, human resources, etc.

Some of the documents specifically referenced in the “enabling mechanisms” document were considered and approved at INCOSAI. The most pertinent of these are:

- The “**SAI Performance Measurement Framework**” – a framework intended, amongst others, as an assessment tool against the definition of professionalism, to define capacity development needs (SAIs in developing environments) or to confirm the status of a “member in good standing” (SAIs in developed environments),
- The “**Framework for Regional Professionalism**” – a framework that challenges the regional structures within INTOSAI to review and structure their service offerings in very much the same way that Professional Accounting Organisations (PAOs) would do, and
- An initial “**Competency Framework for Public Sector Audit Professionals**” (referred to as the INTOSAI competency framework in the rest of the document) – an attempt to define the unique competencies for public sector external auditing in relation to the International Standards of Supreme Audit Institutions (ISSAIs) and intended as a way to make the discussion around auditor professionalism a more tangible one.

In concluding on these developments, INCOSAI resolved, amongst others, to establish a new a new structure – the “**Task Force on INTOSAI auditor professionalization (TFIAP)**”, chaired by the CBC with the aim to:

- Continue to research enabling mechanisms required to facilitate and structure professional development in INTOSAI, including cooperating with relevant INTOSAI organs and INTOSAI related entities in order to forge appropriate relationships – based on confirmed criteria – with the broader international accounting and auditing community on work relating to auditor education, training and capacity development,
- Utilise the competency framework for public sector audit professionals as a basis for further discussion and refinement of the concepts related to professional development in order for INTOSAI to be provided with a set of professional pronouncements on auditor competence in the next three to six years, including the development of specific professional development options based on the competency framework, including auditor certification, and
- Consult, through the CBC, with the new Forum for INTOSAI Professional Pronouncements (FIPP) regarding the structure and process for developing professional pronouncements on public sector auditor competence in order that standards and guidance on auditor competence can be developed successfully.

This document aims to provide a strategic overview of the work of this Task Force - which will deal with the requirement of “**having competent people**” in the definition of professionalism over the next three years.

2. MEMBERSHIP AND TERMS OF REFERENCE

The following membership is envisioned for the TFIAP:

- CBC Secretariat representative (Chair) and two to three members (representative of all audit systems),
- Other Goal Chair representatives (at least one member each from the Professional Standards Committee (PSC), the Knowledge Sharing Committee (KSC), and Policy, Finance and Administration Committee (PFAC)),
- INTOSAI Regional Organisation representatives (at least four – given past proven expertise in professionalization, e.g. OLACEFS, PASAI, AFROSAI/AFROSAI-E, ASOSAI),
- INTOSAI Chair representative,
- General Secretariat representative,
- INTOSAI Development Initiative (IDI) (two persons - one at executive level and one technical expert),
- INTOSAI-Donor Steering Committee representative, and
- Forum for INTOSAI Professional Pronouncements (FIPP) liaison officers (as determined by the FIPP leadership).

Observers (it will be essential for the TGIAP to have access to the best possible global expertise in the area of professionalization):

- IFAC,
- Professional bodies (such as IIA / CIPFA / ATD), and
- HR specialist (TBC).

The TFIAP will provide the following reports:

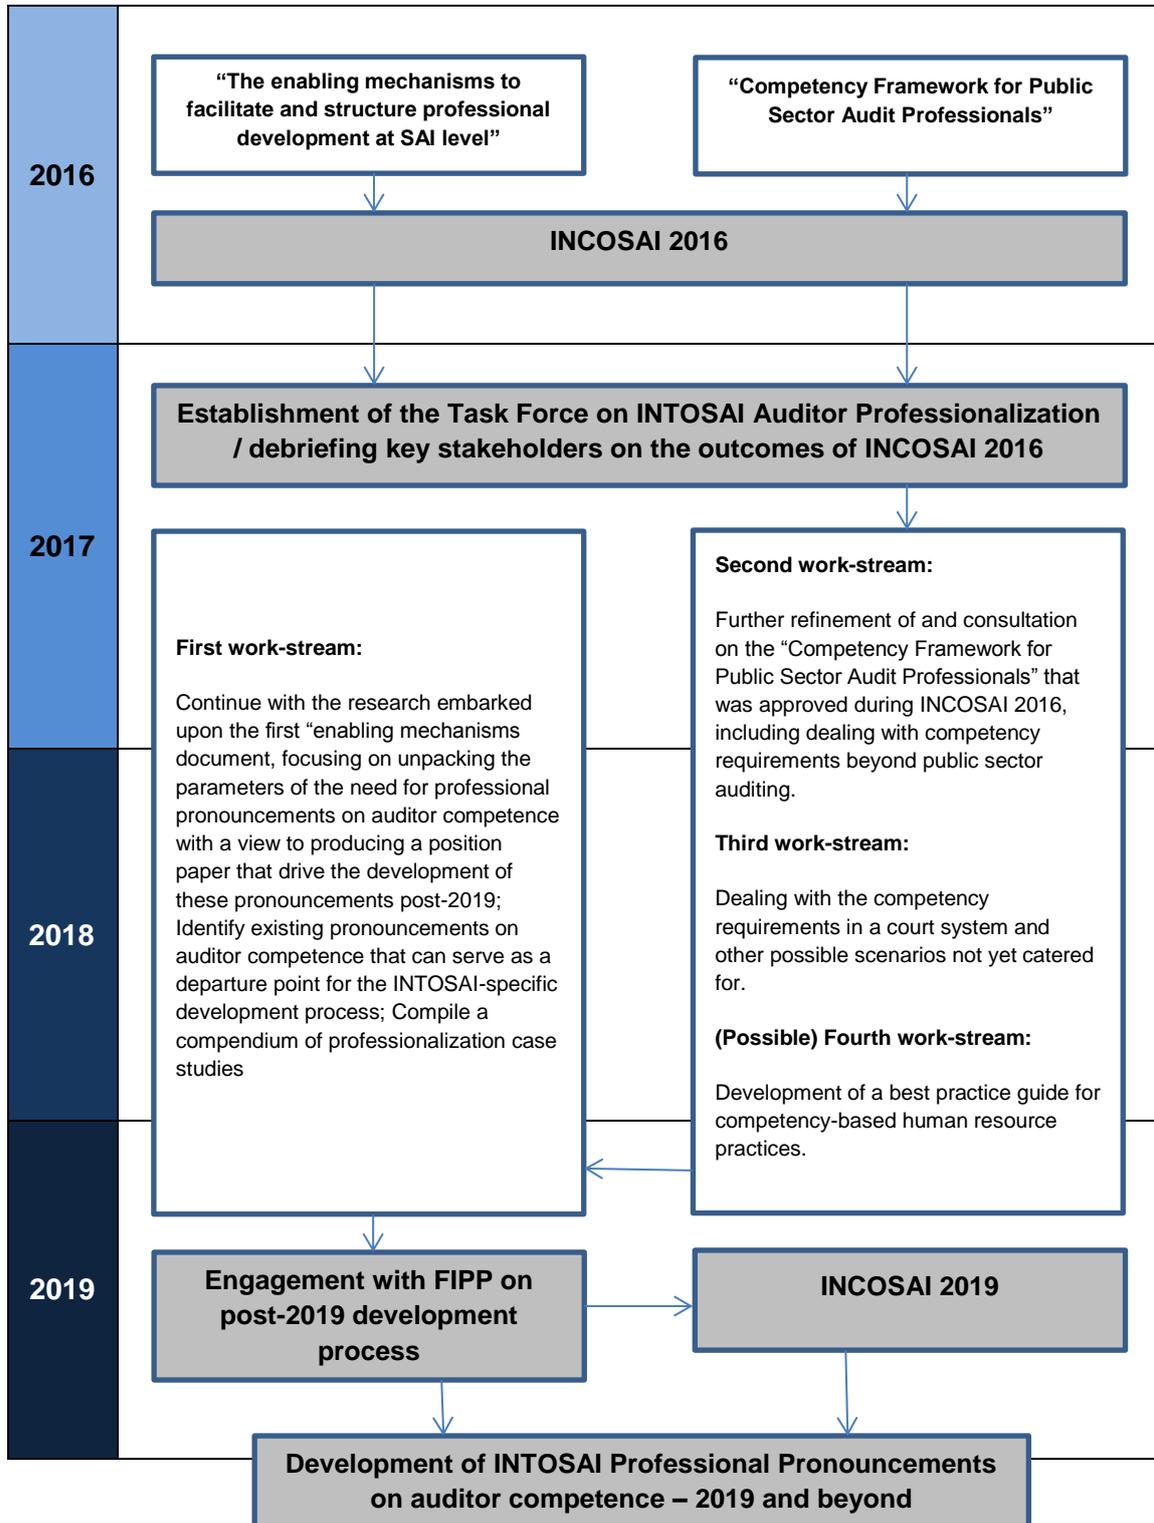

- Updates to the CBC leadership on at least a quarterly basis,
- Annual reports to the CBC Steering Committee, and
- Annual reports to the INTOSAI Governing Board.

The relationship with the FIPP will be managed through the liaison officers that the FIPP leadership has allocated to the task team. Cognisance is taken of the Strategic Development Plan for the INTOSAI Framework of Professional Pronouncements (SDP) and the related due process requirements in determining the exact parameters of the working relationship with the FIPP.

The TFIAP intends meeting twice a year – one contact session during the first semester and one session, at the time of the annual CBC meeting, during the second semester of each year. The option of potentially running concurrent work-stream sessions will also be considered.

3. BROAD ROADMAP FOR WORK

In broad terms, the provisional roadmap for the next three years until INCOSAI 2019, can be depicted as follows:

The **first work-stream** represents a continuation of the research and work contained in the original enabling mechanisms document. Initially this work-stream will focus on unpacking and understanding the needs for professional pronouncements (at the level of standards and guidance) on auditor competence, taking into account the widest possible range of views within the INTOSAI community. The intention with this process is to develop a position paper that will deal with the actual detailed drafting of such pronouncements beyond 2019 – the time period that FIPP has set aside in its SDP for the consideration of pronouncements of auditor competence.

As part of the work on the envisaged position paper, research should properly reflect on the availability of existing professional pronouncements that can serve as a possible departure point for and/or inform the crafting of INTOSAI-specific pronouncements on auditor competence.

Lastly, in reaction to specific views expressed by both the INTOSAI Development Initiative (IDI) and INTOSAI regional organisation, the TFIAP intends creating a work-space on the CBC web-site to compile a compendium of professionalization case studies that can both inform the development of professional pronouncement and can serve as valuable inputs / lessons learnt into regional or even SAI processes of professionalization. Although covered under the first work-stream, it is foreseen that the task –force may only want to play an oversight role in this regard, leaving the detailed administration to the CBC secretariat or, once in place, administrative staff dedicated to the work of this task-force.

The **second work-stream** deals with the next phase of refinement of the INTOSAI competency framework and recognises the need for further refinement of this global framework, including broader consultation and (possibly) testing in certification programs offered by the IDI, INTOSAI regional organisations, SAIs and learning providers. Consideration should also be given to dealing with other focus areas beyond just the current public sector auditing focus, which may align well with research work (flagged in the first work-stream) on existing professional pronouncement on auditor competence.

To be able to provide INCOSAI 2018 with a single position paper on professional pronouncements on auditor competence, which will need to deal with, amongst others, competency requirements, it is accepted that this work-stream (as well as the related third and fourth work-stream that also deals with further work on the current INTOSAI competency framework) will have to feed into the first work-stream at the start of 2019.

The **third work-stream** is proposed based on commentary received during the first consultation process on the INTOSAI competency framework that indicated the need to consider the applicability of this framework to the court system of auditing and that suggested the need for a separate guidance in this regard. It is proposed that this work-stream runs concurrently to the second work-stream, headed up by a prominent court system SAI (such as the SAI of France), closely supported by the TFIAP secretariat.

For the sake of completeness, a further need relating to the utilisation of the current INTOSAI competency framework is noted as a possible **fourth work-stream**, dealing with the development of a best practice guide for competency-based human resource practices, although it is accepted that resource requirements may cause this to be held over for the post-2019 period.

4. PROPOSED ACTION ANALYSIS

At a more detailed level, an initial work-plan for the period 2017 to 2019 is set out below:

Year	Quarter	Proposed action
2017	Q1	<ol style="list-style-type: none"> 1. Debrief key stakeholder regarding the outcomes of INCOSAI 2016, related to the old TGIAC / new TFIAP (INTOSAI Goal chairs, INTOSAI regional organisations, IDI, TGIAC members, IFAC, IIA), 2. Update the CBC web-site with the outcomes of INCOSAI 2016, related to the old TGIAC / new TFIAP, 3. Compile a draft strategic concept for the TFIAP for consideration by the CBC leadership and, later, the first meeting of the task-force, 4. Invite members to the new TFIAP, using the new draft strategic concept, and 5. Confirm a work-method with FIPP (with the priority focus on creating liaison officers between the FIPP and the TFIAP).

Year	Quarter	Proposed action
2017	Q2	<ol style="list-style-type: none"> 1. Prepare for the first meeting of the task-force in late May / early June 2017¹, with emphasis on <ol style="list-style-type: none"> a. Discussing and confirming the proposed draft TFIAP strategic concept, b. Work-shopping the needs for professional pronouncements on auditor competence with a view to circulating an electronic mini-survey on the topic to regions and SAIs in Q3, c. Work-shopping the parameters of possible further refinements to the current INTOSAI competency framework with specific emphasis on: <ol style="list-style-type: none"> i. Refining and adding to the current document, ii. Considering the need for expanding the document to cover other areas (such as accounting, tax, management, leadership, etc) and means of achieving this, iii. Lifting the standards of the document to a level that may qualify it as an example of a future professional pronouncement on auditor competence, and iv. Agreeing on the process of further consultation, 2. Contact SAIs using the court model of auditing, in consultation with the SAI of France (as chair of the AISCCUF) to test the viability of establishing the third work-stream to deal with competency requirements in these SAIs, 3. Facilitate the agenda for the first meeting of the TFIAP, 4. Communicate the outcomes of the first TGIAP meeting to all stakeholders, and 5. Update the TFIAC section of the CBC web-site.

¹ Perhaps linked to the INTOSAI PSC meeting in Brazil in June 2017.

Year	Quarter	Proposed action
2017	Q3	<ol style="list-style-type: none"> 1. Agree with CBC secretariat to make a dedicated space available on the CBC web-site for the submission of case studies on SAI professionalization (based on parameters of discussions during first TGIAP session), 2. Establish the third work-stream, dealing with competencies for court system SAIs, depending on feedback from affected SAIs from previous quarter and willingness to from key players to take on this responsibility², 3. Conduct mini-survey on the needs for professional pronouncements, 4. Conduct further research to identify existing professional pronouncements that inform the work of the first work-stream, 5. Explore the option of an INTOSAI regional organisation to take on the project to draft the best practice guide envisaged in the fourth work-stream and confirm the parameters of this project – potentially as part of a second TFIAP meeting at the time of the 2017 INTOSAI CBC meeting³, 6. Report back on progress made with the work of the TGIAP during the annual CBC meeting, 7. Continue with the work on the second work-stream (consultation and further refinement), and 8. Update the TFIAC section of the CBC web-site (case studies and progress update).

² Terms of reference for this group, as well as more specific milestones will be determined once the need has been confirmed. Accordingly, these details have not been added to this action analysis.

³ Comments as for footnote 1. Take note of the fact that the development of a best practice guide for competency-based human resource practices appear on the work-plan of at least one INTOSAI regional organisation and that dealing with human resource challenges appears on the work-plans of most INTOSAI regional organisations.

Year	Quarter	Proposed action
2017	Q4	<ol style="list-style-type: none"> 1. Continue with the further research to identify existing professional pronouncements that inform the work of the first work-stream, 2. Continue with the work on the second work-stream (consultation and further refinement), 3. Monitor the work of the third and fourth work-streams, and 4. Update the TFIAC section of the CBC web-site (case studies and progress update),
2018	Q1	<ol style="list-style-type: none"> 1. Process the outcomes of the mini-survey sent out in 2017, 2. Conclude research to identify existing professional pronouncements that inform the work of the first work-stream, 3. Conclude initial consultation phase on the INTOSAI competency framework and process inputs, 4. Prepare a first draft of the position paper to drive the development of professional pronouncements on auditor competence post 2019, 5. Monitor the work of the third and fourth work-streams, and 6. Update the TFIAC section of the CBC web-site (case studies and progress update).

Year	Quarter	Proposed action
2018	Q2	<ol style="list-style-type: none"> 1. Present first draft of a position paper to drive the development of professional pronouncements on auditor competence post 2019 to the third meeting of the TFIAC, 2. Present a first draft of the reworked INTOSAI competency framework(s) to the third meeting of the TFIAC, 3. Agree on parameters of further work required / consultation on the position paper and INTOSAI competency framework(s), 4. Monitor the work of the third and fourth work-streams, and 5. Update the TFIAC section of the CBC web-site (case studies and progress update).
2018	Q3	<ol style="list-style-type: none"> 1. Conduct further work on position paper and INTOSAI competency framework(s) as agreed in the third TFIAC meeting, 2. Consider arranging a work-session of the third and fourth work-streams as a fourth TFIAP meeting during the annual CBC meeting with a view to consider first draft deliverables and to agree on process to finalise, 3. Report back on progress made with the work of the TGIAP during the annual CBC meeting, and 4. Update the TFIAP section of the CBC web-site (case studies and progress update).
2018	Q4	<ol style="list-style-type: none"> 1. Finalise final draft of the position paper and INTOSAI competency framework(s) and present for consultation within the TFIAP, 2. Conduct work to finalise deliverables from third and fourth work-streams, and 3. Update the TFIAP section of the CBC web-site (case studies and progress update). 4.

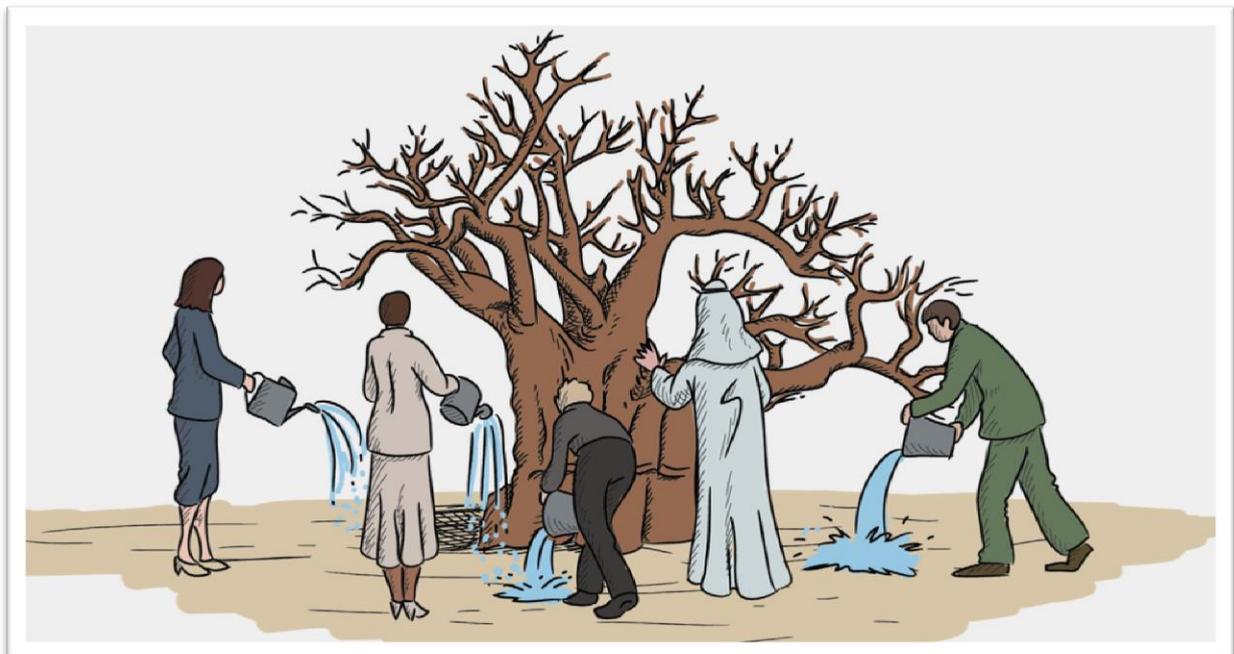

Year	Quarter	Proposed action
2019	Q1	<ol style="list-style-type: none"> 1. Present deliverables from all four work-streams to an early fifth meeting of the TFIAP, with a view to confirm these as ready for final consultation in the INTOSAI community (3 months), and 2. Update the TFIAP section of the CBC web-site (case studies and progress update),
2019	Q2	<ol style="list-style-type: none"> 1. Rework deliverables from all four work-streams, based on commenting period for final consideration at the annual CBC meeting, and 2. Update the TFIAC section of the CBC web-site (case studies and progress update),
2019	Q3	<ol style="list-style-type: none"> 1. Consider final deliverables from all four work-streams at the annual CBC meeting, 2. Prepare material (video's banners, publications) for use at INCOSAI, 3. Prepare work-plan of TGIAP for post 2019, and 4. Update the TFIAC section of the CBC web-site (case studies and progress update).
2019	Q4	<ol style="list-style-type: none"> 1. Present final deliverables to the INTOSAI Governing Board for approval and to the INCOSAI for adoption.

6. CONCLUDING COMMENTS

INCOSAI 2016 has entrusted the TFIAP with the responsibility and privilege to coordinate work on auditor competence over the next three years. During the congress it was very clear that, as part of the theme on professionalization, all Supreme Audit Institutions (SAIs) recognise and value the need for competent people to handle the critical mandate that SAIs carry out on behalf of the people of the country they function in.

It was also very clear in the discussions, in the formal congress proceedings and during the networking opportunities created, that many SAIs have invested heavily in the task of professionalization of their people. This document aims to tap into this wealth of knowledge and experience, to give structure to the process of professionalization of SAI staff through the development of INTOSAI professional pronouncements for auditor competence.

Through the contribution of SAIs and INTOSAI regional organisations sharing their experiences, challenges and ambition regarding the development of auditor competence, supported by the expertise of the different strategic goal committees, working groups, sub-committees and task forces, as well as bodies such as the IDI, the journey to develop professional pronouncements for auditor competence, can just be a rewarding and constructive one. In keeping with the motto of the INTOSAI Capacity Building Committee's presentations at INCOSAI 2016, it is through valuing and formalising local solutions, that we can build strong and relevant global profession.

“GLOBAL PROFESSION, LOCAL SOLUTION”
