

# Post-2016 SAI PMF Strategy

CBC and IDC Steering Committees

Cape Town, 5 October 2016

Kimi Makwetu, CBC Chair

# Introduction

# The four prerequisites for professionalism

**Specific requirements regarding working environment (Lima/Mexico Declarations, ISSAI 12)**

**Professional standards underpinning execution of mandate (ISSAI declaration: Johannesburg 2010)**

**Development of required competencies to execute mandate (education, training, certification, CPD)**

**Specific governance processes to determine adherence to requirements of the other three steps (SAI PMF)**

# Why is SAI PMF of such strategic importance now?

- The world needs strong and high performing SAIs
- SAIs insights needed to help achieve SDGs
- SAI need to build credibility
- SAI development needs still comprehensive
- SAIs must demonstrate commitment to partners
