## Strategic objective (as per SP 2017-22)
Share capacity development insights and ensure responsiveness to SAI needs through, for example, communities of practice.

### [INTOSAI STRATEGIC GOAL 2: CAPACITY DEVELOPMENT – Strategic Objective 2.4]

## Strategies & initiatives (as per SP 2017-22)
Focus attention on SAIs in fragile situations with particular emphasis on the impact of the 2030 Agenda for Sustainable Development on their capacity development needs.

### [KEY STRATEGIES TO ACHIEVE GOAL 2 AND STRATEGIC OBJECTIVES - #7]

## Performance / progress indicator
Availability to INTOSAI, donors and other partners and stakeholders, of expertise, knowledge and materials on working with SAIs in fragile situations

### Progress, key action items, risks

#### Progress to date:
- Workplan agreed and communicated, with focus on sharing experiences through a discussion paper, short stories and a forum.
- Forum for AGs held in South Africa, March 2018. (Article in INTOSAI Journal.)
- Short stories with good examples produced.

#### Key next steps / action items:
- Additional forum and video conference options being considered.
- Further research ongoing on the possible need for further support for ISSAI implementation in fragile situations, through sharing of good examples etc.

#### Key risk(s):
- “Fragile” terminology potentially alienating some SAIs, keeping them from benefiting from work stream’s work. **Mitigating action:** (a) Consider alternative terminology. (b) Continuously inform about focus of workstream.
- **Project group unable to meet expectations.** **Mitigating action:** (a) Communicate achievable goals. (b) Engage others in a dialogue and cooperation.
- **SAIs in fragile situations unable/unwilling to contribute to the work.** **Mitigating action:** (a) SAIs with relevant experience in the working group. (b) Start by demonstrating the relevance/usefulness of the work little by little.
- **SAIs in fragile situations unable to make use of what is developed.** **Mitigating action:** (a) Technical and resource limitations taken into consideration. (b) Encourage users to propose solutions.
