SAI PMF
Implementation
Strategy 2020-2022
Strategic outcome 1: To establish the SAI PMF as a widely recognized tool within INTOSAI for holistic, evidence-based SAI performance measurement, and recognized as such by in-country stakeholders and the donor community.

Strategic outcome 2: Through an effective roll-out of the SAI PMF, with proper guidance and support activities, ensuring that all assessments are considered to be of high quality, credible and relevant by all users.
• 59 assessments finalized, of which 12 published
• 9 reports under independent review
• Around 25 assessments in planning, field work or drafting stage
• Strong take-up in most regions, repeat assessments picking up
• More than 1200 persons trained, pool of IDI and SAI staff experts in SAI PMF gradually expanding
SAI PMF Strategy revision highlights

Revised strategy emphasizes:

- Ensuring quality of assessments
- Encouraging publication of results
- Awareness-raising on costs and benefits
- Anticipation of revisions to the framework
- Stronger link to use of SAI PMF results
- Critical mass of SAI PMF experts

"Supporting SAIs in strengthening performance and capacities"
Way forward

1. Present of strategy highlights to IDI Board and finalize draft Strategy (29 March)
2. Circulate draft Strategy to relevant INTOSAI stakeholders and incorporate feedback (until 10 May)
3. Consultation session at the coordination meeting in Cape Town (21-23 May)
4. Deadline for submitting feedback to the draft Strategy (29 May)
5. Approval of strategy at CBC meeting (July)
6. Endorsement of Strategy at INCOSAI (September)
