

INTOSAI CAPACITY BUILDING
COMMITTEE ANNUAL MEETING
20 – 23 JUNE 2023

Partnering for stronger SAIs and enhanced PFM
Jamaica Pegasus Hotel, Kingston, Jamaica

For the first time since its last in-person meeting in July 2019, the CBC will bring together its members and other key stakeholders to deliberate on ways for SAIs to maximise the development of SAI capacity and professional capabilities. We will focus on important areas of capacity development of SAIs and regional organisations, and explore solutions for current development challenges with a specific focus on ways to partner and collaborate in support of SAIs capacity development needs. We will have a specific focus on the importance of people management, especially SAIs capacity for competence management, and also on SAIs' capacity for quality management. In addition, we will explore some of the success factors for SAI relevance and impact.

As in previous years, the CBC meeting will be joined-up with the annual meeting of the INTOSAI-Donor Cooperation (IDC), with the IDC meeting this year taking place on 19 June and half-day on the 20th, with the CBC meeting following immediately after. The CBC is also partnering with the International Federation of Accountants during the CBC's Regional Forum session on 22 June.
