Secondly having specific funding provides certainty for provider of ability to work with a long term focus, thirdly coordination and project mgmt continuity makes relationship easier

Question 3: Bettler Communicate handbooks, Lessons learned on Website better,...also interesting for EXTERNAL Players „Oil for Development“

2. Budget and resources allocation must be improved and more oriented to beneficiaries needs

3. Where are the good practices in peer to peer project management shared?

Q1: we had a P2P project with SAI of France (design of our quality assurance system). It was made quite successful by: clear demand, flexibility, same organizational culture, reasonable funding.

Question 3: better communicate the positive effects for the providers of P2P

NAO and SAI Jamaica , what made it successful, we could relate to the culture, blended learning approach, working with SAs they had the practical experience SAI Jamaica designed the courseware

1. Support to SAI The Gambia with IDI, SAs eg Sierra Leone, UK, IBP - clear plan and needs, HR and working sessions

-Improved communication-All fundings should go thro the regions-Registration of all needs with the regions-encourage P2P support instead of having recourse to consultants
