Capacity Building Committee peer to peer cooperation workstream

April 2023

UK National Audit Office and Netherlands Court of Audit

Agenda 19 April 2023

- Introductions

- From capacity to impact: lessons from an evaluation of agency to agency cooperation – Númi Östlund

- Q&A

- Break

- Where do we stand as P2P workstream

- Group discussion

- Closing and next steps

We want to be an active community of practice which will:

1. Encourage and create opportunities for SAIs to share their experiences of peer-to-peer cooperation;
2. Identify the barriers to successful peer-to-peer exchanges and work with the CBC Secretariat to explore potential solutions
3. Provide easy access to SAIs who are new to peer-to-peer work to speak to, and obtain advice from, more experienced SAIs
4. Help SAIs understand the donor landscape and the types of opportunity that exist
5. Encourage recipient SAIs with more developed capabilities to become providers to other SAIs in their region or locality (e.g. a 'train the trainer' approach)
6. Connect with, and draw best practice from, other peer-to-peer support programs outside of the SAI world

Where are we currently?

- Good practices in peer-to-peer cooperation identified and compiled
- Blogs on peer-to-peer cooperation shared on the CBC website
- Compilation of lessons learned on each step of the project cycle, shared during the kick-off meeting for the interactive P2P meeting series
- Interactive P2P meeting series successfully covered:
    - ✓ *Initiation and needs assessment*
    - ✓ *Design and planning*
    - ✓ *Implementation and monitoring*
    - ✓ *Evaluation*
    - ✓ *Exit strategies*
- EU-mapping into peer-to-peer support to SAIs is almost complete – we have input into the work
- Held calls with each region to explore interest in joining the workstream

What's next for the P2P workstream?

- Aim to meet with sufficient regularity to ensure momentum and maintain effective connections between SAIs

- To work sustainably: make best use of technology and to limit travel to the minimum level necessary. Most sessions will be virtual

- An inclusive approach: we seek representation from all regions, and aim to increase SAI participation

- A focus on analysing the results of the EU P2P mapping study, extract lessons and discuss the way forward and next steps. Topics to include:
  - Consider changing trends around how peer-to-peer support levels
  - Explore regional disparities on where support is provided from/to
  - Find solutions to barriers that prevent more SAIs entering into peer-to-peer arrangements
  - Deep dive into donor arrangements and funding sources

Discussion Group

Some questions for you:

- Tell us what you would most value from the workstream?
- Any specific sessions that you would find helpful?
- How often would you like to see events/meetings?
- Would you be willing to help run a session?

Any further questions for us?

Staying involved

We want to increase participation

- Please do forward contact details to other SAIs!
- Welcome help to plan and coordinate sessions – please do express an interest!
